

System requirements

Server-side requirements

Components	Minimal	Recommended
CPU	Intel i3 1.6GHz or equivalent processors	Intel i5 3GHz or equivalent processors
RAM (freely available)	6GB	16GB
Supported Terminal Server	Microsoft Remote Desktop	
Hard disk space required for programs	5GB	20GB
Hard disk space required for documents	10GB	depending on the size and number of customer documents (recommended 2TB)
Operating system	Windows Server 2012 (R2) / 2016 / 2019 / 2022	
Database	Microsoft SQL Server 2017 upwards	
Network	TCP/IP port 1433 must be opened on the server	
Support	Remote access via the Internet is required for maintenance (not permanent).	
Software platform	Microsoft .NET Framework 4.8	
E-Mail	For the sellify Outlook integration, an Outlook version from 2010 is required.

System requirements

Client-side requirements (workplaces)

Components	Minimal	Recommended
CPU	Intel i3 1.6GHz or equivalent processors	Intel i5 3GHz or equivalent processors
RAM (freely available)	2GB	4GB
Memory on terminal server	2GB per user	4GB per user
Hard disk space required for sellify	1GB	
Hard disk space required for documents	2GB	20GB or more, depending on the maximum size of the document stock (relevant for e.g., CAD drawings or DTP documents)
Screen resolution	WXVGA (1280x800)	Full HD (1920x1080)
Network	TCP/IP with a latency of less than 5ms	
Minimum bandwidth	150kB/sec. per user	
Access to sellify documents directory	as network drive or server share with read/write permissions	
Operating system	Windows 7 SP1 (x86 or x64) Windows 8 (x86 or x64) Windows 8.1 (x86 or x64) Windows 10 (x86 or x64) Windows 11 (x86 or x64)	
Software	Microsoft Office and Microsoft Outlook 2010 / 2013 / 2016 / 2019	
Multiscreen support	Yes	
Touch-support	No	
Software platform	Microsoft .NET Framework 4.8 Microsoft Visual C++ Redistributable Package Microsoft Visual J# 2.0 Redistributable Package
